

SENTINEL

Premium Autonomy and Protection for Swimming Pools

SENTINEL PRO LTE

- Size: (H)600mm x (W)490mm x (D)150mm
- Information displayed on a 10.1 full colour HD touch screen
- State of the art sensor suite to analyse pH, sanitiser, temperature and total dissolved solids (TDS)
- Sensor block incorporates UV sterilisation to maximise sensor accuracy and longevity
- Easy 'in block' and 'over the air' sensor calibration to prolong the life of sensors and probes

- Autonomous control of up to 5 dosing pumps for pH plus, pH minus, sanitisers and flocculants
- Includes 2 dosing pumps for pH and sanitiser with the option to add up to 3 additional dosing pumps
- Smart dosing will adapt flow rate and dosing speed to compensate for system pressures
- Dose pH plus (alkali) and pH minus (acid) in addition to chlorine, Active Oxygen and flocculants
- Hierarchy technology removes the risk of any 2 dosing pumps running at the same time

- Includes 2 x 400 litre day tanks to store pH and sanitiser chemicals
- Day tanks incorporate chemical level sensors which automate a low level alert to your Twitter or email account
- **FREE** Chemicals for Life (chlorine (Nitro NXT) or Active Oxygen (Fusion OH-), and pH control)
 - excludes speciality chemicals such as flocculants
 - one off supplement charge of £499 + VAT for Active Oxygen
 - terms apply
- Monthly analytics report is sent to any designated email address

- All Sentinel Pro systems pay for themselves, typically within 3-5 years
- All Sentinel Pro systems benefit from a 10-year warranty including a quarterly service (terms apply)

- Upgrade at any time to a Sentinel Pro PWR system
 - it is more cost effective to initially purchase a PWR system than to upgrade from LTE to PWR
